Junior Web Developer

PROFESSIONAL SUMMARY

Junior Web Developer with a strong foundation in front-end development, UI/UX design, and AI-assisted tools. Experienced in building responsive React applications, designing user-centered interfaces, and creating structured design systems. A Cum Laude Information Technology graduate with hands-on experience from real client projects, capstone development, and cross-functional work environments. Detail-oriented, adaptable, and eager to grow in a professional tech setting.

PERSONAL INFORMATION

- Date of birth: May 20, 2002
- Nationality: Filipino
- Language Proficiency: Filipino, English

EDUCATION

B.S. in Information Technology
Laguna State Polytechnic University
Cum Laude | 2020 - 2024

PROJECTS

- **Portfolio Website** (React)
 - Designed and developed a responsive portfolio website using React, featuring a structured design system, reusable components, and clean UI/UX principles.
- **Learning & Development System** (UI/UX Designer - OJT)
 - Designed user interfaces for a real client system, focusing on usability, layout, and clarity for training workflows.
- **AI Emotion Detector** (Capstone)
 - Developed an AI-assisted web system to analyze student emotions during online lessons.
